BEST PRACTICES FOR IRS FORM 4506-C

To accommodate the OCR technology being utilized by the IRS, Planet Home Lending has composed the following best practices to ensure a smooth process flow.

Sellers are encouraged to obtain specific requirements from their vendor for completing their 4506-C.

IMPORTANT: If a loan is selected by Planet for Post-Purchase QC, and the 4506-C is not able to be processed, the Seller will be required to provide an updated 4506-C or provide the required transcripts.

If the Seller has already obtained and used a 4506-C to retrieve IRS transcripts and provides the transcripts in the Mortgage file: A copy of the 4506-C form is not required to be resubmitted separately.

It is highly suggested that only one borrower be listed on a single 4506-C form.

- Both borrowers who filed their tax returns jointly may be listed on the 4506-C form when 1040s are requested. All borrowers must sign and date.

Form Completion Best Practices

 - More than one company is listed, or
 - Contains verbiage such as Care Of (c/o), Doing Business As (DBA), "its successors or assigns", "ATIMA" or ISAOA/ATIMA
